

Program Mission Statement, Goals & Student Learning Outcomes

Mission Statement

The DCH School of Radiologic Technology is committed to prepare students to be competent, entry-level radiographers, and provide high quality health care professionals to any medical community.

Goals & Learning Outcomes

The purpose of the program is to provide educational opportunities in the Radiologic sciences to members of the communities supported by the sponsor. To that end, the goals of the program and its curriculum are designed to provide the healthcare community with entry-level competent radiographers.

Goal 1

Graduate students with the professional skills necessary to perform competently in the clinical setting

<i>Student Learning Outcomes</i>	1. The student will produce quality images demonstrating consistent and accurate positioning skills.
	2. The student will competently identify diagnostic quality images and correct non-quality images accordingly.
	3. Students will practice radiation protection standards for the patient, self and others.

Goal 2

Provide students with opportunities to develop and acquire problem-solving and critical thinking skills

<i>Student Learning Outcomes</i>	1. The student can determine the need to modify standard procedures to accommodate patient condition and other variables.
	2. The students can recognize emergency patient conditions and begin appropriate treatment.

Goal 3

Program graduates will demonstrate values and ethical behaviors of a radiographer

<i>Student Learning Outcomes</i>	1. The student will apply the values and ethics of a radiographer.
	2. The student will provide compassionate care to all patients.

Goal 4

Graduate students that will practice effective communication skills

<i>Student Learning Outcomes</i>	1. The student can communicate effectively with radiologists, radiographers, instructors, and other healthcare professionals.
	2. The student can obtain a pertinent patient history and educate the patient about the procedure.

Goal 5

Graduate students with the professional skills necessary to perform competently in the clinical setting

<i>Student Learning Outcomes</i>	1. Students will meet basic education, ethics, and examination requirements for the American Registry of Radiologic Technologists.
